SUMMARY

Full Stack Developer who builds complete web products, from front end to back end: responsive interfaces, APIs, databases, authentication, payments and cloud deployment. Creator of **FARISAFIT**, a SaaS platform for personal trainers already being tested by real users. With a degree in Chemistry and currently studying Physical Education, I combine technical and business knowledge to deliver solutions that solve real problems, with ownership, clear communication and on-time delivery.

SKILLS

Front-end	HTML5, CSS3, JavaScript, TypeScript, React, Vite, responsive and accessible design
Back-end	Node.js, Express.js, REST APIs, Cloudflare Workers (serverless), JWT and session authentication
Databases	PostgreSQL, SQL, Cloudflare D1, Supabase, Prisma, migrations
Cloud & deploy	Cloudflare (Pages, Workers, R2), Vercel, Render, GitHub Actions
Integrations	Mercado Pago (OAuth, webhooks, Pix), Resend and Brevo (transactional email), AI integration
Tools	Git, GitHub, automated testing
